

RoboMission

Season 2026 - **ELEMENTARY** Game

Surprise Rule

A famous artist has arrived at the festival but forgot their **VIP Backstage Pass** in the **Aramco / Sponsor Area**. Without this pass, they cannot access their instrument to perform. The robot must retrieve the pass and deliver it to the **Start Area** so the show can go on!

Starting position: place a 2x2 LEGO element (VIP pass) in the center of the Sponsor Area zone.

	Each	Max.
VIP pass is completely inside the starting area	20	20

Record this score under the "surprise rule" on the official scoring sheet.

RoboMission

Season 2026 - **JUNIOR** Game

Surprise Rule

Deep within the fortress ruins, archaeologists have discovered a high-tech storage capsule in the **Robots Meet Culture zone**. This capsule contains the original blueprints of the fortress walls—the key to ensuring our restoration work is historically accurate. To prevent these fragile documents from being damaged by the elements, the robot must act as a true **Heritage Hero**. Your mission is to locate the storage capsule in the Sponsor Area and carefully transport it back to the **Start Area**, where the preservation team is waiting to digitize the ancient designs.

Starting position: place a 2x2 LEGO element (capsule) in the center of the Robots Meet Culture zone.

	Each	Max.
Capsule is completely inside the starting area	20	20

Record this score under the "surprise rule" on the official scoring sheet.

RoboMission

Season 2026 - **SENIOR** Game

Surprise Rule

The restoration of the ancient mosaic requires a specialized, light-sensitive pigment that has just been synthesized in the **Northwest Gray Target Area**. Because this pigment is highly volatile, it cannot be left on the "construction site" (the mat) for long. The robot must retrieve this pigment canister and return it to the **Start Area** (the climate-controlled Restoration Hub) where the conservation team can prepare it for the mosaic tiles.

Starting position: place a 2x2 LEGO element (pigment) in the center of the **Northwest Gray Target Area (left to the Robots Meet Culture)** zone.

	Each	Max.
Pigment is completely inside the starting area	20	20

Record this score under the "surprise rule" on the official scoring sheet.
